

< Details of amount of refundment >

The amount of money that deducts a commission from the amount of money of the remittance is repaid when failing in the successful bid.

When the successful bid fails, basic fee 500YEN (tender commission)(Because of one tender) is generated. The receipt commission paid to PayPal when the remittance is received is subtracted.

| | | (Example) |
|---|--------|--------------------------------------|
| Amount of money of remittance(Cost until making a successful bid) | | 50,000YEN |
| Commission to PayPal | | (Commission that hangs to 50,000YEN) |
| •Receipt commission | 4% | 2,000YEN |
| tender commission | 500YEN | 500YEN |

(Total 47,500YEN)

Calculating formula = (Amount of money of remittance) - (Commission to PayPal) - 500YEN
= (Amount of money of remittance) - (Amount of money of remittance) * 4% - 500YEN
= (Amount of money of remittance) * 0.96 - 500YEN

The currency of Japan is yen.
